**"Fruit-a-tives"—With Its Message Of Health and Happiness—Has Come To The United States To Relieve The Sick And The Suffering.**

## THE ONLY MEDICINE MADE FROM FRUIT JUICES

"FRUIT-A-TIVES"—the fruit medicine which has been responsible for so many remarkable cures in all parts of Canada and England—has become a naturalized American. "Fruit-a-tives" crossed the line from Ottawa, the Capital of the Dominion, about 2 years ago and took up residence at Ogdensburg, New York, where offices and fruit tablet works were located.

The success of "Fruit-a-tives" has been one of the wonders of the Canadian medical world. Just to give some idea of the demand for "Fruit-a-tives" in Canada, it may be mentioned that the sales last year amounted to one million, one hundred and fifty two thousand boxes (1,152,000) or, in simpler figures, six tablets for every man, woman and child in the country.

"FRUIT-A-TIVES"—is the only medicine in the world made from fruit juices. By a remarkable discovery of one of the leading physicians of Ottawa, the juices of apples, oranges, figs and prunes are transformed into a new compound, which has all the medicinal and relieving properties of fruit juice and in a more marked degree.

"FRUIT-A-TIVES" has helped to save many people in a very wonderful way; notably in very severe dyspepsia, which was thought to be cancer of the stomach—in chronic constipation of 20 years standing—in kidney and bladder troubles—in terrible neuralgia and sick headaches—in heart trouble, caused by indigestion and constipation—in eczema and other skin troubles. Photographs and personal letters will be shown in the leading New England papers to prove every claim made for "Fruit-a-tives".

The prices for "Fruit-a-tives" are 50c. a box, 6 for \$2.50, trial size 25c. These tablets are rapidly being placed on sale in drug stores and stores handling medicines. Should you be unable to obtain them in your neighborhood, you can get them, postpaid, by remitting the retail price to Fruit-a-tives Limited, Ogdensburg, New York.

Miriam Rebekah lodge will celebrate their 65th anniversary this evening by joining the Odd Fellows in their Old Home Night entertainment.

The Odd Fellows have arranged an interesting program of music and refreshments will be served by the Rebekahs. It is hoped every Rebekah will show her appreciation of the invitation extended by the Odd Fellows by being in attendance this evening.

The Cone studio is to be moved from its present quarters on Main street to the west half of the Hawks block, a few doors west of the present location where Mr. Cone will have better facilities for his business.

An addition that will be of considerable assistance will be a modern skylight. Plans for the changes have been made and the work will be completed probably by November 1 in time for the holiday business.

## Making Bouquets

In making bouquets or arranging flowers in vases amateurs often make the mistake of placing all the leaves around the outside and of massing the flowers tightly. This is suitable for a small corsage or boutonhole bouquet, but is not good for other purposes. The leaves and flowers should be mixed so as to present a natural, growing look, and not enough flowers should be placed in one vase to give a crowded appearance. The simplest and surest way of securing a graceful, well balanced bouquet is to put the foliage in the vase first, using enough to make the leaves stand up nicely and not enough to crowd the vase. Into this foundation stick the stems of the blossoms, making sure that they reach down into the water. It is easy by this method to make few or many flowers show off to advantage. Even when a bouquet is to be taken away this will be found the surest method of securing good arrangement.

## HOWE SCALE WORKS

Big Property Transferred Tuesday To Its New Owners.

Rutland, Sept. 19.—The control of the Howe Scale company passed out of the hands of ex-Gov. John A. Mead today. Dr. Mead, who held 87 1/2 per cent of the stock of the company, disposed of three-fourths of his holdings to capitalists who are largely interested in the famous Du Pont powder industry with plants in various parts of the country.

W. R. C. Stickney was the legal representative of the Howe Scale company in the transfer of the stock.

On Sept. 22 the new owners will have a meeting in New York when a new board of directors will be elected. It is part of the contract under which the owners secure Dr. Mead's control interest in the business that he remain at least three years as the president of the concern. Under this agreement Dr. Mead will be elected President. Carl B. Hinsman will be vice president, Edward V. Ross treasurer, and L. G. Bagley, general agent. Dr. Mead will continue as the executive head of the business and for at least 10 years the business will remain in Rutland.

It is the hope and belief of Dr. Mead that within 10 years the business and plant may be increased to the point that it cannot be consistently moved to some other city.

The Howe Scale company already manufactures several articles besides scales and it is the intention of the new owners to further enlarge the scope of business by manufacturing safes. Within a week the company has secured control of the Alpine Safe and Lock company of Cincinnati, O., and will engage in this line of business. It is also proposed to engage in the manufacture of refrigerators and possibly other articles.

The Howe Scale company has upwards of 1,100 employees in its plant and various branch offices and it is likely that this number within a short time will be materially increased. The plans for enlarging the plant are to be carried out and it is probable that within a year even larger additions will be made.

Ex-Gov. Mead emphatically stated last evening that the sale of his holdings was in no way a part of the operations of a country-wide merger of scale manufacturing plants.

Dr. Mead would make no statement regarding the price per share which the new owners paid for the controlling interest nor as to the total amount involved, but it is generally believed that the transaction amounted to considerably over \$1,000,000.
